The World's San Francisco special says that a crice in Mexican affairs on the Pacific coast is imminent. The Prench troops in the Northern and Western Mexican States have been driven ignominously to the coast, and are hemmed in a few port towns, whence they are limble to be driven on board their vessels of war for safety. Mazatlan is besieged and its streets barricaded. The Liberais under Corona are pressing close upon it in the rear. Fighting has occurred in which the Liberais, alded by the Americans lately enlisted, have been victorious. The ant pathy of the French and Imperial Mexicans to Americans is increasing. There are instances of Americans having been thrown causelessly into prison, and subjected to growing insults. Threats of the indiscriminate slaughter of Americans are boldly made by Mexicans to Mexicans to Supplementations. NEW YORK, March 6.

Threats of the indiscriminate slaughter of Americans are holdly made by Mexican Imperial authorities in certain towns. It is time—it is actually necessary—that war vessels be dispatched there by the United States Government, at once, to prevent trouble, and demand a decent respect for citizens of the United States and the American flag. It may even be too late now, but longer tarrying will be a crime. NEW YORK, March 6.
